**REQUEST FOR RECONSIDERATION**

Commissioner of Patents  
Washington, D.C. 20231

Dear Sir:

In a communication from the Examiner dated August 13, 2002, it was alleged that the amendment filed by Applicants on May 10, 2002 was not fully responsive to the prior Office Action. Specifically, the Examiner requested information regarding various components described in the application so that the Examiner could determine whether such components may be treated as prior art under 35 U.S.C. § 102.

In response, Applicants filed an Information Disclosure Statement on December 6, 2002. The Information Disclosure Statement included a brochure for the PIRANHA camera by Dalsa referred to in the application, a brochure directed to SHERLOCK machine vision application software by Coreco Imaging, Inc. which is also discussed in the present application, and a brochure directed to a FOSTEC LIGHTLINES device which is further described in the present application. If the Examiner needs any

further information with respect to these products, the Examiner is invited to contact the undersigned.

In the Office Action dated December 13, 2001, other information contained in the application was also cited as prior art. In particular, the Examiner asserted that it was prior art to run paper webs at a speed of 4,000 ft. per minute, to form a paper web having a weight of less than about 16 lbs. per 2,880 ft.<sup>2</sup> and to use a black formation fabric. In response, although wet pressed paper forming machines are known to run at a speed of 4,000 ft. per minute and although paper webs have been known to be formed having a basis weight of less than 16 lbs. per 2,880 ft.<sup>2</sup>, Applicants are not aware of any commercially available formation fabrics that are black in color. For instance, on page 9, the present application states that various commercially available forming fabrics may be used in the present invention "if the appropriate color or contrast is provided."

Should the Examiner desire any further information regarding the above or if the Examiner has any questions as to whether any of the other information contained in the application is prior art, the Examiner is invited and encouraged to telephone the undersigned at his convenience. Applicants will continue to provide the Examiner with any prior art that comes to their attention in accordance 37 CFR 1.197 and 37 CFR 1.198.

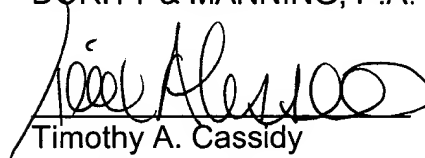

Please charge any additional fees required by this Request For Reconsideration to Deposit Account No 04-1403.

Respectfully submitted,

DORITY & MANNING, P.A.
